

# Cannabis Assembly

I am \_\_\_\_\_ a free person of \_\_\_\_\_. I have full knowledge of all freedoms, rights and powers granted by the United Nations Declaration of Human Rights and the European Convention on Human Rights. My private personal use of cannabis is inherent to my religious beliefs, eases my pains and brings me peace. Only through the use of cannabis can I further myself spiritually and commune with the essence of the universe.

It is my belief that the Sacred Herb cannabis must be cultivated and used as the Sacrament for me to fulfill my role on Earth. Mankind has employed the cannabis plant from ancient times for medicine, sacrament, food, clothing, and shelter.

My RIGHT to the cultivation and use of cannabis sacrament is authorized by:

The United Nations Declaration of Human Rights.

Article 18, "Everyone has the right to freedom of thought, conscience and religion; this right includes freedom to change his religion or belief and freedom, either alone or in community with others and in public or private, to manifest his religion or belief, in worship, teaching, practice and observance."

The European Convention on Human Rights.

Article 9, "Everyone has the right to freedom of thought, conscience and religion; this right includes freedom to change his religion or belief and freedom, either alone or in community with others and in public or private, to manifest his religion or belief, in worship, teaching, practice and observance."

"Freedom to manifest ones religion or beliefs shall be subject only to such limitations as are prescribed by law and are necessary in a democratic society in the interests of public safety, for the protection of public order, health or morals, or for the protection of the rights and freedoms of others."

International law guarantees personal freedom and privacy. I am a private person and demand that my privacy be protected and honoured. I claim this right under:

The European Convention on Human Rights

Article 1. "All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood."

Article 8.1. "Everyone has the right to respect for his private and family life, his home and his correspondence.

Article 8.2. "There shall be no interference by a public authority with the exercise of this right except such as is in accordance with the law and is necessary in a democratic society in the interests of national security, public safety or the economic well-being of the country, for the prevention of disorder or crime, for the protection of health or morals, or for the protection of the rights and freedoms of others."

All these rights are further endorsed by the European constitution and contained therein.

We use Cannabis to relax our consciousness and allow our sub conscious to reach a state of meditation thus allowing us to improve as human beings and enhance our understanding of the essence of the living universe.
